

The image consists of ten identical rectangular panels stacked vertically. Each panel is filled with a dense, noisy pattern of green and blue pixels, resembling a corrupted or encrypted image. The panels are separated by thin black horizontal lines. The overall effect is a vertical strip of ten noisy, pixelated rectangles.

The image consists of ten identical rectangular panels stacked vertically. Each panel is filled with a dense, noisy pattern of green and blue pixels, resembling a corrupted or encrypted image. The panels are separated by thin black horizontal lines. The overall appearance is that of a corrupted or encrypted image, possibly a document page that has been heavily distorted or encrypted.

A vertical stack of ten horizontal bars, each filled with a dense, noisy pattern of green and blue pixels, resembling a corrupted or encrypted image. The bars are separated by thin white lines.
